

## **POST JUNE 21 MEETING DRAFT ENDORSEMENTS**

### **Requests for consideration and possible endorsement by Incoming Dean Wildermuth**

- 1) Beginning with the 2018-2019 academic year, the School of Law will make available and strongly encourage participation in multiple iterations of inclusion and bias training for all members of our community—students, faculty, administrators, and staff. The form and substance are yet to be determined. The WG agreed to suggest possible trainings and providers, and also volunteered to vet the trainings before they are provided more widely.
- 2) Beginning with the 2018-2019 academic year, the School of Law will make available and strongly encourage participation in multiple iterations of training in carrying on (to use a broad term) difficult or uncomfortable conversations involving issues of diversity, inclusion and free speech for all members of our community -- students, faculty, administrators, and staff. Again, the form and substance of the training is yet to be determined. The WG agreed to suggest possible options/formats for this and to suggest those individuals who are well-suited to do it, and also volunteered to vet potential presentations.
- 3) Beginning immediately, every person who is part of our School of Law community, at any level, should look for every opportunity available to incorporate considerations of diversity and inclusion in everything we do. The WG agreed to assist with ideas and coordination of this, broken into faculty, staff, and student efforts. Because one's experience as a student varies by program and year of study, students will likely need to be broken into 1Ls, upper class students (2Ls and 3Ls), and nontraditional students.
